

A subjective and objective exploration of the student's visual capacity...

CREATIVE VISION

*A graduate level Brain Gym® course with Don Wetsel, L.Ac.
December 11 – 13, 2009, Annapolis, Maryland*

- Experience dynamic personal growth and change in your vision of life.
- Receive new and expanded understanding of the pre-checks and educational opportunities in laterality, centering, focus and motivation dimensions.
- Gain new understanding of how vision and movement relate to learning and other life skills.
- Acquire the knowledge, hands-on practice and confidence necessary to make Creative Vision an integrated part of your Edu-K consulting.

"Vision is a mental act, dependent upon how we perceive the world and interact with it."

–Paul Dennison, Ph.D.

About the Course

The *Creative Vision* workshop explores the use of the advanced Educational Kinesiology (Edu-K) process to improve visual information processing by unveiling hidden perceptual gifts blocked by the survival mechanism. Edu-K is intrinsically a non-intrusive process that recognizes that each person's adaptation to his or her life experience is part of a complex and personal pattern. The *Creative Vision* work has proven its value as a tool for release of visual and postural compensations and the re-establishment of whole brain visual processing and writing.

Creative Vision presents a subjective and objective exploration of the student's visual capacity, and has consistently met with very enthusiastic responses from course participants.

Techniques you will learn

- In-Depth Vision Training
- Homolateral Reflex Repatterning
- Movement Re-education of the scapula, neck flexors, and eye muscles.
- Edu-K eye points
- *And much more!*

Don Wetsel, MA, L.Ac, NCTMB. has studied extensively with Dr. Paul Dennison. In addition to Edu-K In-Depth, he teaches Brain Gym®, Visioncircles, Optimal Brain Organization, Movement Re-education, Creative Vision and Touch for Health®. His extensive training and experience in functional aspects of both western and energetic anatomy and physiology allow him to embody these concepts and effectively teach them to others. He becomes passionate when these concepts become creative and transformational in the Educational Kinesiology 5 step balance process. Don enthusiastically shares his vision of a world where learning is fun and easy. He supports each individual to develop fully and embody excellent health and emotional and spiritual well being.

December 11 - 13, 2009

Course Location: Annapolis, Maryland, Class size is limited! Please register early.

**Fee: \$450, when \$100 non-refundable deposit is received one month ahead of class, \$500 afterwards.
